

ClearBill keeps the explanation attached to the synthetic statement

One EOB is annotated in place: the answer names the fields to compare, cites public guidance, and keeps live refusal separate from the fixture.

ADJ Network discount and plan payment	-\$282.00	Applied	\$0.00

NOT A BILL

Compare with the provider invoice before paying; every identity and amount shown is synthetic.

BUNDLED DEMO QUESTION

What is an Explanation of Benefits?

DETERMINISTIC EXPLANATION

An EOB is the insurer's record of how a claim was processed—not a bill.

1

Amount billed

provider submission

2

Allowed amount

negotiated or recognized price

3

Plan paid

insurance payment

4

You may owe

deductible, copay, coinsurance, or non-covered amount

PUBLIC GUIDANCE SHOWN WITH THE ANSWER

[1]	HealthCare.gov	understanding an insurance bill
[2]	CMS	No Surprises Act consumer rights
[3]	CFPB	disputing a medical bill

LIVE MODE

retrieve ≤6 → usable source text → context-only answer

no usable text → 422 response before generation

EVIDENCE BOUNDARY

Fixture answer and sources are deterministic. No coverage, correctness, compliance, retrieval-quality, or financial-outcome claim.
