

ClearBill has one shared evidence plane

POST /api/chat

Public guidance enters from the corpus path; questions leave through a guarded answer path.

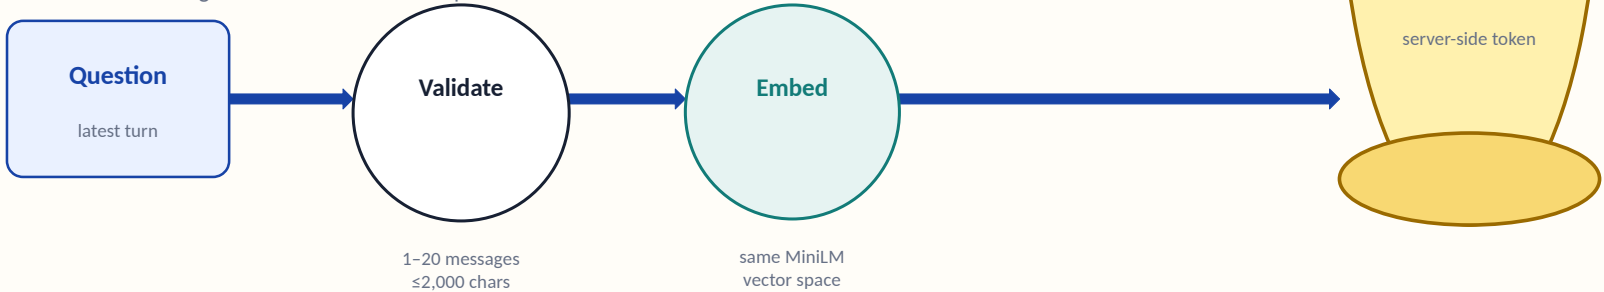

01 • BUILD THE CORPUS

18 maintained public guidance URLs

02 • ANSWER A QUESTION

The latest user message enters the same vector space.

A

SERVER BOUNDARY

Astra and model credentials never enter the browser.

B

EMPTY RETRIEVAL

The route refuses before generation—no general-knowledge fallback.

C

SCOPE

Educational guidance only; no PHI, coverage, or amount-owed decision.

The offline and online paths share only the embedding space and vector collection; the evidence gate decides whether generation is allowed.
